## NO CHANGE IN BOATS

The Wilder Company  
Keeps Molokai Job

FOR LEPER FREIGHTING

Several New Buildings Are To Be  
Put Up at the Settlement  
at Once.

AT THE opening of yesterday's session of the Board of Health President E. C. Winston announced that he had made known his resignation to Governor Dole and would therefore step out. Member George W. Smith reminded Mr. Winston that as he was elected by the board that body would have to receive his resignation. Mr. Winston said that he would hold the office until the end of the session. He intended going to the Coast on the Zealandia next Friday and a successor would have to be elected.

A letter from Wilder's Steamship Company was read in which Mr. Wight, the President, said the Lehua would be run to Kalaupapa as often as required, as had been done before when reasonable notice was given. He did not believe the board would receive good service by the steamer running to Kalaupapa direct, as a large portion of the palai used at the Leper Settlement is taken from different ports on Molokai and Maui, and the direct run would necessitate taking on the palai after the call at Kalaupapa, and it would thus remain on board four or five days. Again, the weather at Kalaupapa is very uncertain and it would often happen the steamer could not land there and the freight would be carried by. If the Lehua proceeded regularly to Kalaupapa it would result in losses of time. It is impossible to work in the night time at Kalaupapa. All of the patrons of the line, except Mr. Reynolds, says Mr. Wight, give the company a week's notice so that they can make arrangements accordingly. Mr. Reynolds, on the other hand, only gives them a few hours' notice and they cannot always accommodate him. The company does not anticipate any difficulty in the matter when the Board of Health has occasion for the company to proceed to Kalaupapa with the Lehua, provided reasonable notice is given. The company is fully aware of all the conditions of the weather and able to form a correct judgment as to the requirements of service and the best way of fulfilling them. Mr. Reynolds, they contend, is not acquainted with these conditions and his suggestions as to what ought to be done are not practical and would not result in good service to the Leper Settlement. The company claims that under conditions of ordinary business they can render good and satisfactory service to the Leper Settlement, but state in positive language that under the conditions which existed it has been utterly impossible to do their business in a businesslike manner.

A member of the firm of McChesney & Co., operating the Hawaiian Navigation Company with the schooners Surprise and Eclipse, said they would do the Board of Health and Leper Settlement work for \$500 a month and would carry all lepers as deck passengers. The Wilder company, according to Mr. Reynolds, was being paid about \$1,000 a month. Mr. Smith said he could not see how the board could place the contract inasmuch as no tenders of bids had been advertised for. Dr. Emerson thought that in such a matter the board should do everything open and above board and should advertise for bids if any change was contemplated. Mr. Smith said if the board made any contract after calling for bids it would have to be for twelve months and there was no telling what the Legislature would do with reference to the board and he advised letting the matter remain as it is. The contract with the Wilder company had expired two years before and they were merely doing the business from month to month.

The committee to look up shipments of preserved meats for the Settlement, Messrs. Winston, Emerson and Pratt, recommended that the bid for 20,000 pounds of tinned roast and boiled beef be given to T. H. Davies & Co. The action was endorsed.

The estimated cost for the new dining room, store rooms and lodging rooms for Kalaupapa, according to the plans of Mr. Reynolds, was \$1,700, which included \$1,200 for material and \$500 for labor. Dr. Cooper moved that the proposed buildings be erected at once, which was ordered.

Attorney-General Dole reported on the firearms and liquor matters with reference to their possession in the Leper Settlement, as follows:

"Lepers in charge of and supported by the Board of Health or Territorial Government in the Leper Settlement at Molokai shall not be allowed the use of firearms, or of spirituous liquors except as the same may be required for medicinal purposes." The report was adopted.

CHAMBER OF COMMERCE.

Business Transacted at the Regular Monthly Meeting

Honolulu's Chamber of Commerce met in monthly meeting yesterday forenoon at their hall on Merchant street with the following members present: H. Alexander Isenberg, J. B. Atherton, F. M. Swamy, E. C. Macfarlane, J. G. Rothwell, H. E. Wally, C. M. Cooke, J. J. Egan, and H. A. Parmelee.

W. F. Allen, president, was in the chair; James Gordon Spencer, secretary, was also present. D. P. R. Isenberg was admitted to membership. Several advertising projects were brought before the chamber, one of which was from Allan Dunn, in which he asked them to endorse a brochure on Hawaii and subscribe for 5,000 copies at ten cents each. The written matter would advertise the city, and the work on it would be done here. The Paradise of the Pacific also re-

quested the chamber to take 500 copies of its Christmas publication at fifty cents a copy, with a page write-up of the Chamber of Commerce.

The chamber approved both advertising mediums, but being without funds, Mr. Atherton said nothing could be done in accepting the offers. Mr. Macfarlane stated that tourist travel was on the decrease in the last year or two. Despite the advertising done by Rice's Advertising Bureau, of Los Angeles, aided by Wilder's Steamship Company, Oceanic Company and other island concerns, the travel was fast falling off. Yet Porto Rico, by judicious advertising, was attracting travelers there. Mr. Rice needed support, and \$150 to \$200 per month would be required. Business men could contribute \$5 to \$10 each. He was awaiting Mr. Irwin's return from the Coast to confer upon the subject of tourist travel. He knew the Oceanic Company had spent thousands of dollars in disseminating information and printed literature on the islands, insufficient steamer accommodation was suggested by Messrs. Swamy and Cooke as the reason for the falling off. A motion by Mr. Macfarlane, that Mr. Rice receive financial subsidy from the chamber did not meet with general approval. Mr. Rothwell suggested the matter be placed in the hands of a committee. The matter of selecting a committee was left over to the next meeting on account of the few present. This was agreed to and the chamber adjourned.

Tomorrow evening a meeting will be held by the captains and secretaries of all Association football clubs to form a league for the purpose of regulating the series of matches which will commence early in January.

## Valuable Residence Property for Sale

House of 8 rooms, all improvements; stable, two box stalls, carriage, feed and servants' rooms.
